Event: BSides Luxembourg 2018 (Oct. 19, 2018)

Thank you for your interest in sponsoring BSides Luxembourg (BSidesLux) 2018.

Recent successes in the US and worldwide have shown that the information security community continues to grow and along with it, the number of BSides events worldwide continues to increase, each event drawing a bigger crowd.

BSides events combine security expertise from a variety of platforms in search of the “next big thing” in information security. BSides is an open platform that gives security experts and industry professionals the opportunity to share ideas, insights, and develop longstanding relationships with others in the community. It is a rare occasion to directly connect and create trusted relationships with key members of the community.

Although the event itself has a symbolic entrance fee to participants, the main cost of hosting such an event is born by the organizers. This package contains sponsorship information specific to BSides Luxembourg in 2018. We have put together different levels of sponsorship and their benefits. Of course, the greatest benefit is that of giving back to the community and enabling others to grow and learn.

Please do not hesitate to contact us if you have any questions or requests. Simply reach us via email at info@bsideslux.lu or on Twitter at [@BSidesLux](https://twitter.com/BSidesLux). **We value your participation in Security BSides events and thank you for your consideration.**

Sincerely,

The Security BSides Luxembourg Organizers

What is Security BSides?

Each BSides is a community-driven framework for building events for and by information security community members. The goal is to expand the spectrum of conversation beyond the traditional confines of space and time. It creates opportunities for individuals to both present and participate in an intimate atmosphere that encourages collaboration. It is an intense event with discussions, demos, and interaction from participants. It is where conversations for the next-big-thing are happening.

History of Security BSides

BSides was born in 2009 when a number of quality speakers were rejected from a mainstream conference, not due to lack of quality but rather lack of space and time. Our mission is to provide people with options by removing common conference barriers and by providing more options for speakers, topics, and events.

2009: Launched in the United States.

2010: BSides breaks into the global space with the first European event.

2011: More than 30 events worldwide in US, Europe, India, Hong Kong, & Australia.

Thousands of people have attended and written about their experience at BSides events. Read more at: <http://www.securitybsides.org/Media>

While every BSides event is unique, here are some things that do not change:

- Community-organized, volunteer-driven, and corporate-funded;
- Provide a forum to expand the spectrum of conversation;
- Focused on giving a voice to the “next big thing”.

History of BSides Luxembourg

Security BSides Luxembourg was born in 2017. The first event had more than 80 participants listening to the presentations of 10 speakers, mainly from BeNeLux and the greater region of Luxembourg but also from other European countries.

Goals

Promote Communication

BSides events act as a complement to other area events by enabling long-tail spectrum that complement the current or surrounding event. The goal of each BSides event is to provide a forum where communication and collaboration can continue while the level of conversation is able to increase.

While large mainstream conferences tend to focus on the current hot topics in information security industry, BSides events explore the fringe of conversation and focus on what could be the next big thing. Conversations have ranged from hardware hacking to Twitter hacking, and proximity-based identity theft. We aim to give a platform to the conversation that is happening just below the surface. Sponsoring enables you to engage that conversation!

Reach the Target Audience

BSides reaches out to the industry professional looking to augment their industry knowledge with cutting-edge conversations. Typically, this includes industry leaders, thought leaders, security professionals, and even students who wish to expand their depth and body of knowledge and network. Attendees have a wide variety of backgrounds in multiple sectors and verticals with a shared goal: to learn about and discuss emerging security issues and connect with others already having the conversation.

Format

Engage

Unlike other events where the speaker is rushed in and out, BSides provides a small and intimate environment for the attendees to directly engage the speaker before, during, and after their talk or presentation. BSides attendees are looking for more than just information; they are looking to make connections they will call upon throughout the rest of the year.

Culture

Traditional media exist as a constrained system that must operate within the bounds to which it has defined itself. Physical events constrain themselves with space and time but frameworks permit the continuous creation of individual events. Our goal is to provide people with options by removing those barriers and providing more choice of speakers, topics, and events. The initial BSides event spawned a wave of new events throughout the United States and around the world.

Participation

BSides is not made up of members but participants. Everyone who participates in the events brings something to contribute. Some bring hardware, organizational skills, and others bring their friends to fuel the conversation. Sponsoring enables you to be part of the conversation and interact with attendees. As our thanks, we are committed to connecting you with those attendees of interest to you and your business. By making your participation successful, organizers hope to enable future BSides events.

Media

Media Attention

Security BSides has attracted media attention and been written up in CSO Online, Network World, ComputerWorld, Information Week, The Register, ZDNet, and Dark Reading magazines. In addition to numerous blog posts and podcast placements, BSides has also received coverage from Hacker News Network (HNN), EFFector, and Cisco System Cyber Risk Report.

Be part of the conversation and get swept up in the media. Many participants have been quoted and picked up by mainstream news sources including National Public Radio (NPR). Check out the entire list here: <http://www.securitybsides.org/Media>

BSides Luxembourg is part of Luxembourg's Cybersecurity Week, which aims to raise awareness of cybersecurity threats, promote cybersecurity among citizens, corporates, and SMEs, and provide up-to-date security information through education and sharing best practices. More information at <https://cybersecurityweek.lu/>

Many BSides events are simulcast online or recorded and archived for viewing. Your participation will reach an audience larger than simply those present. BSides Luxembourg will have video recording of the presentations, providing additional media coverage for you. Previous recordings of the talks can be viewed at the BSides Luxembourg channel: https://www.youtube.com/channel/UC676wT_3Y8J4zHh2tjhx3Zw/playlists

Reasons to Support

The goal of Security BSides is to offer events where all participants can engage each other to help develop connections, friendships, and network with different industry professionals. We recognize the value in engaging a smaller audience and providing the opportunity for sponsors to be a big fish in a small pond. We specifically design different options so that any sized organization can participate and support this event. The following is a list of direct benefits you may see as an event sponsor.

Brand placement & awareness: Depending on the level of sponsorship you select, you may receive brand placement at some or all of the following: t-shirts, signage/lanyards, lunch sessions, or attendee badges. Creative and custom branding may be arranged including transportation, banners, podcast interviews, etc.

Stay in touch with the industry: BSides enables its supporters and participants to identify and connect with industry leaders and voices. Participants represent the social networking of security. They are the people you want to engage and solicit feedback from and who will give a voice to your conversation.

Be a part of the next big thing: Nobody knows what that “next big thing” will be, but these events are community driven with presentations voted upon by the industry. There is no magic to how it works, but it does. We believe that listening to the underground can help prepare and equip you for whatever the next big thing may be.

Big fish, small pond: For some, sponsoring large events is not within their price range, leaving them with no ability to communicate their message. At BSides we leave no one out. Sponsorship comes in all sizes and this community atmosphere brings together active and engaged participants who want to listen. As a sponsor, you can be heard and share your message with an active and attentive audience.
